## IN THE CLAIMS

Claim 1 (original): A harness for a quadruped animal including:

a chest strap which in use of the harness lies across the chest of the animal in front of the forelegs;

a trunk loop to which each end of the chest strap is attached and which in use of the harness passes around the trunk of the animal behind the forelegs; and

an attachment for a leading strap, the attachment being slidably mounted on the chest strap for movement therealong.

Claim 2 (currently amended): A <u>The</u> harness according to claim 1 in which the attachment for a leading strap is a ring through which the chest strap passes.

Claim 3 (currently amended): A <u>The</u> harness according to claim 1 <del>or</del> 2 further comprising a stabilising link one end of which is mounted on the chest strap and the other end of which is adapted to be attached in use of the harness to a collar around the neck of the animal.

Claim 4 (currently amended): A  $\underline{\text{The}}$  harness according to claim 3 in which the stabilising link is slidably mounted on the chest strap for movement therealong.

Claim 5 (currently amended): A <u>The</u> harness according to claim 4 in which the attachment for a leading strap and the stabilising link are connected so as to be able to move together along the chest strap.

Claim 6 (currently amended): A <u>The</u> harness according to claim  $\underline{3}$   $\underline{3}$ ,  $\underline{4}$  or  $\underline{5}$  in which the stabilising link is attached to a cinch

through which a loop of the chest strap passes.

Claim 7 (currently amended): A  $\underline{\text{The}}$  harness according to claim 6 in which the attachment for a leading strap is mounted on the said loop of the chest strap whereby the cinch is retained on the chest strap.

Claim 8 (currently amended): A <u>The</u> harness according to claim 1 in which the trunk loop comprises a back strap which in use of the harness lies across the back of the animal affixed to a lower strap which in use of the harness passes under the animal behind the forelegs.

Claim 9 (currently amended): A The harness cording to claim 8 in which the back strap is pivotably affixed to the lower strap

Claim 10 (currently amended): A  $\underline{\text{The}}$  harness according to claim 8  $\underline{\text{or}}$  9 in which a second attachment for a leading strap is provided on the back strap.

Claim 11 (currently amended): A <u>The</u> harness according to claim 8 8, 9 or 10 in which the ends of the chest strap are pivotably attached to the trunk loop where the back strap meets the lower strap.

Claim 12 (currently amended): A <u>The</u> harness according to claim 8 8, 9, 10 or 11 in which the trunk loop includes a clasp by which it can be opened to in use of the harness allow the harness to be placed on or removed from an animal.

Claim 13 (currently amended): A <u>The</u> harness according to <u>claim 1</u> any preceding claim in which the length of at least one strap or loop is adjustable.

Claim 14 (currently amended): A <u>The</u> harness according to <u>claim 1</u> any preceding claim for a dog.

Claim 15 (currently amended): A The harness according to claim 1 any preceding claim in which the attachment on the chest strap for a leading strap is constrained against free movement along the chest strap.

Claim 16 (currently amended): A <u>The</u> harness according to <u>claim 1</u> any preceding claim in which the second attachment for a leading strap is constrained against free movement along the back strap.

Claim 17 (currently amended): A The harness according to claim 1 any preceding claim in which the chest strap is of a polyester webbing.

Claim 18 (currently amended): A <u>The</u> method of controlling a dog or other quadruped animal comprising:

placing a harness according to  $\underline{\text{claim 1}}$  any preceding claim on the animal; and attaching a leading strap to the or each attachment for a leading

strap.
